Introduction

Hello everyone, I'm Paridhi Saxena from Indore, Madhya Pradesh.

I have completed my schooling from Chameli Devi Public School. I hold a B.Sc. degree in Biotechnology with a specialization in Computer Science from Acropolis Institute Of Management Studies and Research, Indore. I have also completed Master's in Computer Applications (MCA) from Shri Vaishnav Vidyapeeth Vishwavidyalaya Indore.

I come from a background that blends science, tech, and communication.

My Tagline: "Tech-Savvy. People-Ready."

💻 My Skills & 🌟 My Strengths

💻 My Skills -

- Front-End Skills – HTML, CSS, JavaScript
- Database Skills – MySQL
- MS Office Tools – Word, Excel, PowerPoint
- Presentation Design Tools – Canva
- Email Writing

🌟 My Strengths-

- **Resilience:** Even if things go wrong or I fail, I don't give up easily—I try again.
- **Team Collaboration:** I work well with others and help the team succeed together.
- **Confidence:** I believe in myself and am not afraid to speak up or take responsibility.
- **Effective Communication:** I can express my thoughts clearly and understand others easily—whether I'm speaking or writing.
- **Adaptability:** I'm flexible—I can adjust to changes or new situations without any problem.

Real Life Example- As a US IT Recruiter, I often handled last-minute changes and tight deadlines. I stayed calm, adjusted quickly, and kept clear communication with both clients and team members. -This reflects my resilience, adaptability, confidence, teamwork, and communication.

What Makes Me Different?

ⓘ 🔥USP- "With me, you get reliability, relatability, and results."

👉 This means:

- **Reliability** – You can trust me. I take work seriously and finish what I start.

- **Relatability** – I understand others and make them feel comfortable.

- **Results** – I get things done and show real outcomes.

Projects I've Worked On-

1

Website Redesign – Islamia Karimia Society

Redesigned the official website of Islamia Karimia Society using HTML, CSS, and JavaScript.

2

AnimTreat – A College Project

Created a website named AnimTreat along with friends during MCA, using HTML, CSS, and JavaScript — focused on delivering a clean and engaging user experience.

🎯My Future Vision

My goal is to have a secure job at a good position in a company that offers-

- a healthy work environment,
- a space for innovation,
- and a culture that is fun and motivating.

I want to create a better future for myself and my family by doing work I enjoy, improving my skills, and being part of meaningful projects.

Why Should You Invest in Me?

"From Biotech to Code – I Speak Both Languages"

I understand both science and technology—and how to connect them with people.

I bring a blend of technical skills, communication strength, and a growth mindset. I'm tech-savvy, people-ready, and always open to learn person. I focus on delivering my work, uplifting my team, and adapting to challenges. With me, you get someone who's reliable, motivated.

My Most Convincing Pitch-

"I come from a science background but developed my interest in tech. I'm a confident communicator, a fast learner, and someone who brings both logic and empathy to the table. I'm not just tech-savvy — but I'm also a people-ready person. Whether it's coding, collaborating, or contributing fresh ideas, I'm here to add value and grow with a team that believes in innovation, trust, and results."

Your time matters — thank you.

If you're looking for dedication, growth, and real results — invest in me.
